

**Title: C++/.NET Software Developer**

**Skills:** C++, Visual C++, C#, experience in Visual Studio 2005 and up and experience migrating older VS projects into more recent environments, i.e. VS2013

**Job Description:**

Synesis7 provides software engineering, research and development, data standardization and transformation, and consulting services and products to our clients in support of their operational, logistics, maintenance, training, and data management and sustainment environments. You will be part of a team responsible for providing all aspects of integrative custom software solutions analysis, engineering, development, integration, and testing; product research and development; consulting; and related support services. We are looking for a self-motivated person who can work well with teams as well as independently. The candidate must be able to make an immediate contribution in performing software design, development, testing, documentation, and implementation support (supporting both internal R&D and in delivering highest quality custom customer-specified solutions). Candidate must be willing to travel. Synesis7 strives to create a flexible, employee and family-friendly work environment. It's a work environment that will apply, challenge, and extend your total technical and creative capabilities and skills in developing and delivering the innovative, reliable, and highest quality solutions and services that our clients demand and expect.

**Requirements:**

- 3-5 years programming in C++, Visual C++
- 1-3 years programming in C#
- Experience in Visual Studio 2005 and up
- Experience migrating older VS projects into more recent environments, i.e. VS2013
- Proven track record of developing enterprise level software applications and particularly web applications.

**Additional Skills Desired:**

- Java
- JavaScript
- J2EE

Based in Butte, Montana, Synesis7 is located five miles from the Continental Divide, close to skiing, hiking, National Forests, several blue-ribbon fishing locales, and a 2 ½ hour drive to Yellowstone National Park. Centrally located in Southwest Montana where Interstates 15 and 90 converge, we are situated between Missoula, Bozeman, and Helena.

***U.S. Citizenship is required for this position.***

**How to apply:** Please send cover letter and résumé to [hr@synesis7.com](mailto:hr@synesis7.com).

*All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, or veteran status.*
